ADDITIONAL INFORMATION

Benefits

3.230,21€ - The remuneration is that of the position of the single salary scale equivalent to the salary that was due to the index 195 of the 1st level of the category of Assistant Investigator, as mentioned in Annex I of the ECIC, unless the candidate declared as winner of this contest, having already been hired in public service in this category by another institution, receives a higher remuneration

Eligibility criteria

In accordance with Article 16 (3) of the ECIC, the following factors shall be considered and weighted:

A) The quality of the scientific and technical work of the candidates in the last 5 years (QC) -70% being distributed as follows:

i) Scientific production of the applicant in the last five years in the area of management and economics - 60%:

Books and / or book chapters with ISBN;

Articles in indexed journals Scopus ou Web of Science;

Other indicators of technical-scientific production (summaries in conference proceedings, oral communications, panel presentations);

Articles in non-indexed journals Scopus ou Web of Science with peer review;

Editor or editorial board member of international journals;

Peer reviewer in international journals;

ii) Research activities carried out over the last five years (25%):

Researcher responsible for research projects financed by an external organization, for example: FCT, ANI, União Europeia (regional, national and international);

Member of research project team financed by an external organization, for example: (regional, national and international);

Prizes, scholarships and other distinctions;

Participation in evaluation panels of R & D Projects.

iii) Work plan and scientific development aligned with the mission of CARME, for the next 5 years - 15%:

The candidate's ability to have in the future a very relevant scientific production based on the mission of CARME will be evaluated.

B) Contributions in scientific orientation activities and participation in academic juries (OC) - 10%:

Orientation of masters and doctoral students;

Participation in a master's and doctoral jury as examiner;

Participation in a master's and doctoral jury as president;

Participation in selection boards for the hiring of research fellows;

Teaching in master's and doctoral programs.

C) Provision of technical and scientific community service (CSP) - 20%:

Extension and knowledge dissemination activities duly proven by a suitable entity;

Participation in organizing committees of national and international scientific events;

Participation in scientific events (moderator, chair, guest speaker, etc.);

Participation in activities of dissemination and dissemination of science.

Selection process

The methods of selection of the candidate, in terms of article 10 of the ECIC, will be:

Assessment of curriculum vitae (CV);

Scientific work of candidates;

The interview is not a selection method and is not classified, it aims to obtain explanations or explanation of elements contained in the curricula of the candidates and will be carried out whenever the jury decides so, to clarify the indicators A, B and C.

Additional comments

If the doctorate has been conferred by a foreign higher education institution, it must comply with the provisions of Decree Law No. 66/2018, of August 16, and any formalities established therein must be fulfilled by the date of admission.
