

EDITAL LIDA INGLÊS

POLYTECHNIC INSTITUTE OF LEIRIA

Edital no. 1002/2022

Summary: Opening of the international selection competition for recruitment to the career and category of assistant researcher in the scientific area of Design, in the specialty of Health and Well-Being, in the Research Unit of LIDA.

1 - By order of the Vice-President of the Instituto Politécnico de Leiria (Polytechnic of Leiria), Professor Nuno Miguel Morais Rodrigues, dated 16 May, 2022, following a proposal by the Concelho Técnico-Científico da Escola Superior de Artes e Design de Caldas da Rainha (Scientific-Technical Council of the School of Arts and Design of Caldas da Rainha), the opening of an international selection competition for the recruitment of a research assistant in the scientific area of Design, in the specialty of Health and Well-Being, at the Research Unit of LIDA, was authorized for a period of 30 working days, from the date of publication of this notice in the *Diário da República*, of an international selection competition for recruitment, in the form of an open-ended public employment contract, for the career and category of assistant researcher, with exclusive dedication, in the scientific area of Design, in the specialty of Health and Well-Being, in the Research Unit of LIDA of the Instituto Politécnico de Leiria (Polytechnic of Leiria), under the terms of articles 9, 11 and 15 of Decree-Law No. 124/99, of 20 April, which approved the Statute of the Career of Scientific Research, hereinafter referred to as ECIC.

2 - Joint Order No. 373/2000, of 31 March, from the Minister of State Reform and Public Administration and the Minister for Equality, determines that it is mandatory for entry and access competitions to include the following statement: "In compliance with paragraph h) of Article 9 of the Constitution, the Public Administration, as an employer, actively promotes a policy of equal opportunities for men and women in access to employment and professional advancement, taking scrupulous care to avoid any form of discrimination.

3 - Employment Quota: In accordance with Decree-Law 29/2001, of February 3, the disabled person has preference in equal classification, which takes precedence over any other legal preference. Candidates must declare on the application form, in addition to the means of communication/expression to be used in the selection process, under oath, their degree of disability, and the type of disability, and the means of communication/expression to be used in the selection process, in accordance with the abovementioned diploma.

4.1 - The scientific area of this competition is design, in the specialty of Health and Welfare.

4.2 - The present call is open for the contracting, through a public employment contract, by the Polytechnic of Leiria of an Auxiliary Researcher, a category of the research career

4.2 - The present call is open for the contracting of an Auxiliary Researcher, a category of the research career foreseen in paragraph a) of article 4 of the ECIC;

5 - General and special requirements for admission to the competition:

5.1 - General requirements - those defined in Article 17 of the General Law on Civil Service (LTFP), approved by Law No. 35/2014, of 20 June.

5.2 - Specific requirements - those defined in article 10 of the ECIC and taking into account the scientific area considered by the Technical-Scientific Council, only may be admitted to it:

5.2.1 - Individuals who hold a doctoral degree in the scientific area of design, in the specialty of Health and Welfare or, also, those who, although holding a PhD in a different area, have a relevant scientific résumé in the scientific area of Design, in the specialty of Health and Welfare and whose CV is aligned with LIDA's mission.

If the doctorate has been conferred by a foreign higher education institution, it must comply with the provisions of Decree Law No. 66/2018, of August 16, and any formalities established therein must be fulfilled by the date of admission.

5.2.2 - Auxiliary researchers from another institution, within in the scientific area of the competition, and those who, although from a different area, have a relevant scientific curriculum in that area.

5.2.3 - The admission of candidates is conditional on their approval on absolute merit which will depend on

i) Being the author or co-author of at least 5 articles and/or book chapters in the scientific area

(i) Being the author or co-author of at least 5 articles and/or book chapters in the scientific area for which the competition is open, submitted to peer review, indexed in SCOPUS and/or in databases recognized in the field and/or published by prestigious international publishers and/or in international conference proceedings, within the last 5 years; or

ii) To have a portfolio demonstrating a relevant production in the scientific area for which the competition is open, in the last 5 years, with demonstration of its effective reverberation and impact for the academy, including the following items: a) description and presentation of the main projects carried out; b) curatorships, participations by invitation in international or national competitions or exhibitions; c) prizes and other national and international distinctions (namely publications or references about the projects carried out); d) specific relevant publications in the field of design such as exhibition catalogs and/or other pieces exemplifying the action as a designer; or

iii) to have obtained a total of at least 25 citations (excluding self-citations) to scientific works produced in the scientific area for which the competition is open, in the last 5 years;

Applicants must provide proof that they meet the requirements expressed above, indicating the key to be used in the SCOPUS search or other databases that prove it, or including in their CV a listing of the same database that confirms it.

Failure to comply with these requirements will result in exclusion from the application. False statements made by candidates will be punished in accordance with the law.

6 - Remuneration. Working conditions

6.1 - The remuneration is that of the position in the single salary scale equivalent to the salary that was due to index 195 of the 1st step of the category of Auxiliary Researcher, as mentioned in Annex I of the ECIC, unless the person declared the winner of this competition being already employed in public functions in this category by another institution, earns a higher remuneration.

7 - Functional content: The Auxiliary Researcher is responsible for carrying out, on a regular basis, research and development activities and all other scientific and technical activities within the framework of LIDA's mission and inscribed in article 5, no. 1, of ECIC:

- a) Participating in the conception, development and execution of research and development projects and in related scientific and technical activities;
- b) Supervising the work developed within the scope of the projects under their responsibility;
- c) Collaborating in the development of training actions in the scope of research and development methodology;
- d) Supervising the research work developed by grant holders, research interns and research assistants and participating in their training;
- e) Guide and participate in the institution's training programs.

8 - Place of work. Type of competition. Number of positions to be filled. Validity period of the competition

8.1 - The workplace is located at LIDA's premises, located on Campus 3, or other places allocated to the sites allocated to the Polytechnic Institute of Leiria, or others, according to the requirements and needs according to LIDA's mission.
