## OFFER DESCRIPTION

Contract of employment in public functions for an indefinite period, for the career and category of assistant researcher, in exclusive dedication, in the scientific area of Marine Ecology and Conservation and in the related field of Marine Biology, in view to the development of research activities in the School of Tourism and Maritime Technology of the Polytechnic Institute of Leiria (from now on referred to as the Polytechnic of Leiria), as determined by the articles 9, 11 and 15 of Decree-Law no. 124/99 of April 20, which approved the Career Statute Scientific Research, hereinafter referred to as ECIC.

Functional content: the Auxiliary Investigator must carry out, on a regular basis, research and development activities and all other scientific and technical activities included in the mission of the School of Tourism and Maritime Technology and included in article 5, paragraph 1, of the ECIC:

- a) To participate in the design, development and execution of research and development projects and related scientific and technical activities;
- b) To guide the work carried out in the context of the projects under its responsibility;
- c) Collaborate in the development of training actions within the research and development methodology;
- d) To monitor the research work carried out by the fellows, research trainees and research assistants and participate in their training;
- e) Orient and participate in training programs of the institution.

# More Information

## ADDITIONAL INFORMATION

---
